EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Arthur J. Steiner, ESQ. (Reg. No. 26,106) on 12 July 2005.

The application has been amended as follows:

a) In the Claims:

In claim 1, line 2, after "optical lens", insert --with a lower surface--

line 5, after "sensor", insert --, wherein the resin layer contacts said microlens and the lower surface of said optical lens"

Reasons for Allowances

The following is an examiner's statement of reasons for allowance: as opposed to Stavely, US Patent No. 6,535,249 B1, in fig. 9, the optical lens 582, is mounted on the cover 598 by an adhesive (e.g. a resin) which is in turn mounted on a microlens, labeled in fig. 7, 466, col. 5, lines 28-34, and in fig. 9 mounted on a image sensor, 526, col. 5, line 66 - col. 6, lines 10. In claim 1, the application has the features of a resin contacting both the lower surface of the optical lens, and the microlens. The prior art of record fails to teach, in combination, the process features.

Art Unit: 2823

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
